Saber Check

Product Description- SABER CHECK is a proprietary, MULTI- BLEND product designed as a bridging agent to prevent seepage loss across fine to medium fractures. SABER CHECK is easily mixed with conventional rig equipment. SABER CHECK produces a tough cake which both seals and resists washing away while drilling.

PPT Results

	Electrical Stability	Rheology performed at 120F				The PPT was performed at 250F and 1000 psi	
		600 rpm	300 rpm	Viscosity	Point	Spurt	Loss
Base Fluid	1099	22	12	10	2	NC	NC
4 ppb Saber Check	713	20	9	11	2	15	26
7 ppb Saber Check	856	21	11	10	1	11	16
10 ppb Saber Check	615	22	10	12	2	9	14

Properties

Appearance	Beige to Grey
Acid Solubility, %	76-87.5
Hygroscopic	No

Packaging

SABER CHECK Blend is packaged in 50 lb. sacks with 50 per pallet.
